

3RD QUARTER REVENUES CONFIRM PROMISE OF STRONG GROWTH PROSPECTS FOR 2007

Lure, France — October 25, 2007 – For the nine months ended September 30, 2007, Vétoquinol's total revenues reached €166.0 M, an increase of 11.3% compared with the corresponding period in 2006.

Total third quarter revenue came to €54.9 M, compared with €50.8 M for the third quarter of the previous year, an increase of 8.2%.

<i>IFRS compliant, in € millions</i>	2007	2006	Variation
Third quarter revenues	54.9	50.8	+8.2%
YTD revenues (9 months)	166.0	149.2	+11.3%

Growth was reported across the board in terms of both species and geographic regions, with a particularly strong performance from North America, where the acquisition of Vet Solutions in late 2006 has boosted sales significantly.

"In line with statements we made when our half-year earnings were released in September," said Etienne Frechin, Chairman and CEO of Vétoquinol, "it is now clear that revenue growth for 2007 will exceed the previous year's performance which, at 7.6%, had already put us significantly ahead of our medium-term targets. We expect revenue growth to surpass 9% for the full year, which is all the more meaningful given that most of this growth is organic in nature."
