

## **Covid-19: Vetoquinol donates masks to neighboring healthcare facilities.**

Vetoquinol S.A, the animal health laboratory based in Lure (70) has decided to donate more than 6000 masks to hospitals and associations in the region. This is a civic action to help, amongst others, hospitals in the Belfort Montbéliard, Vesoul and Saint-Rémy regions.

Matthieu Frechin, CEO of Vetoquinol says that "Faced with the major health crisis currently affecting France, Vetoquinol is rallying to support healthcare staff in the fight against Covid-19. Solidarity is the responsibility of all economic players to get through this ordeal."

***About Vetoquinol:***

*Vetoquinol is a leading global animal health company that supplies drugs and non-medicinal products for the livestock (cattle and pigs) and pet (dogs and cats) markets.*

*As an independent pure player, Vetoquinol designs, develops and sells veterinary drugs and non-medicinal products in Europe, the Americas and the Asia Pacific region.*

*Since its foundation in 1933, Vetoquinol has pursued a strategy combining innovation with geographical diversification. The Group's hybrid growth is driven by the reinforcement of its product portfolio coupled with acquisitions in high potential growth markets. As at December 31 2019 Vetoquinol employs 2,372 people. Vetoquinol has been listed on Euronext Paris since 2006 (symbol: VETO).*
